2. Pelvic organ prolapse	35

Surgery

1. Laparoscopic surgery	37
2. Surgical drainage	38

1 • ENDOUROLOGY

1.1. Stone extractors

Dormia No-Tip

Titane nickel (Nitinol) • 4 twisted wires.

- Individually packaged
- Sterile
- Detachable handle.

REF.	Ch/Fr	Length	Basket size
EXN434	3	90cm	14mm

Designed for semi-rigid and rigid ureteroscopy.

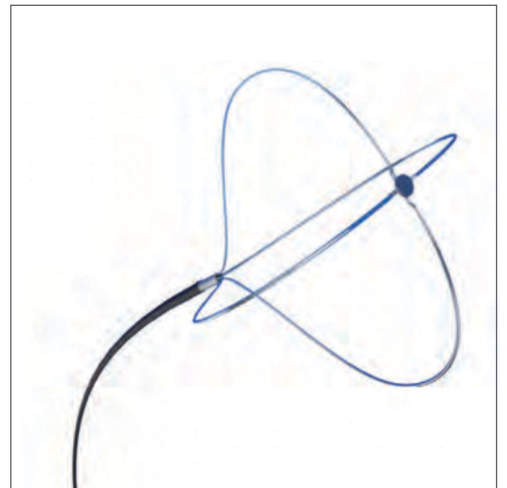

Titane nickel (Nitinol) • 4 round wires.

- Individually packaged
- Sterile
- Detachable handle.

REF.	Ch/Fr	Length	Basket size
EXN734	2.2	120cm	11mm
EXN934	1.5	120cm	9mm

Designed for flexible, semi-rigid and rigid ureteroscopy.

Supplied with a waterproof connector (Tuohy-Borst).

Dormia N.stone

Titane nickel (Nitinol) • 4 helical wires.

- Individually packaged
- Sterile
- Detachable handle.

REF.	Ch/Fr	Length	Basket size
EXT224	4	90cm	15mm
EXT424	3	90cm	15mm
EXT624	2.5	90cm	12.5mm

ReTrace Ureteral access sheaths

Innovation: when the working guidewire becomes the safety guidewire.

- Radiopaque ring.
- Hydro-coated reinforced sheath.
- Ergonomic shape.
- Compatible with a 0.038" stiff guidewire.
- **Individually packaged** • Sterile.

REF.	Sheath diameter	Length
ACXL10	10-12 Ch/Fr	35cm
AXXL10		45cm
ACXL12	12-14 Ch/Fr	35cm
AXXL12		45cm

Vortek Double loop ureteral stents

The double layer structure makes it easy to insert over the guidewire, the stiffness of each size has been adapted in order to keep the mechanical properties.

Duration of implantation: 12 months.

- **Kit composition:** each stent is supplied in a set with a pusher (simple or steerable), with or without a guidewire and with or without a Flush catheter depending on the model.

Ø Guide: 0.035".

Steerable pusher: with or without radiopaque ring.

- **Individually packaged**, except for REF. ACB6 (box of 5) • Sterile.

Sets with simple pusher

Isiris α

Innovative digital solution to remove ureteral stent in one step.
 The product is a combination between a single use flexible cystoscope with an integrated grasper and a reusable portable monitor.

- **Monitor:** individually packaged
- **Scope:** box of 5 • Sterile.

Isiris™ Monitor

Detour

Subcutaneous ureteral bypass for ureteral obstruction.
Long term palliative treatment.

• **Kit composition:**

- Detour bypass.
- Amplatz sheath.
- Tunneling device.

• **Individually packaged** • Sterile.

	Prosthesis material: Silicone and Polyester
Length	840mm
REF.	AE2002

Hydrophilic Nitinol guidewires

Radifocus® Terumo® guidewires*

Its configuration and the combination of Nitinol and hydrophilic properties allow the Terumo® guidewires to reach difficult access sites in complete safety.

- Box of 5 • Sterile.

Drainage catheters

Wide range of tips. Two types of stylets, depending on the rigidity required for optimum drainage.

- Each catheter is supplied with a stylet (metal or polyester) and a connector
- Material: Neoplex, except for REF. AC5B: Polyamide.
- Length: 70cm, except for REF. AC5B: 74cm.
- Catheters are individually packed.
- **Box of 10** • Sterile.

In-Ka, high pressure ureteral balloon catheters

PET balloon for an effective and uniform dilatation of the ureteral meatus or stenosis during endoscopic procedures. Compatible with a 0.035" guidewire.

- Kit composition: each In-Ka catheter is supplied with an inflating device.
- **Individually packaged** • Sterile.

2 • PERCUTANEOUS ACCESS

2.1. Percutaneous nephrostomy set

Kolibri set with J catheter

Complete range of drainage set with J catheter.

• **Kit composition:**

- 2 Chiba needles: 18 and 22G.
- 1 Seldinger or Schüller J-tip guidewire.
- 1 set of dilators according to the catheter size with or without working sheath.
- 1 Vortek J catheter with sleeve (29cm).
- 1 Luer-lock tap and PVC connector tubing.

- **Individually packaged** • Sterile.

Quadratic Slings

Our product:
Virtue.
 Compression & Elevation via Quadratic Fixation.

Urinary Incontinence-Aris

- Helical and flat curved tunnelers
- Made from knitted, monofilament polypropylene.
- Lightweight, macroporous with low elasticity

Urinary Incontinence-Supris

- Retropubic tunnelers
- Made from knitted, monofilament polypropylene.
- Lightweight, macroporous with low elasticity

Urinary Incontinence-Altis

- Sling material based on the Aris & Supris sling.
- Helica type tunneller leads anchor placement.
- Support for patient with urethral hypermobility and intrinsic sphincter deficiency.
- Static and dynamic anchors allow intra-operative adjustability.

Pelvic organ prolapse meshes

For transvaginal repair

- Restorelle Single-incision meshes

Pelvic organ prolapse Y mesh

For trans-abdominal repair

- Restorelle Y mesh

Pelvic organ prolapse flat meshes

Customization based on physician Preference

- Restorelle flat meshes

Digitex suture delivery device

- SutureSmart™ System for Procedural Efficiency

Ureteral catheters

Short-term drainage, injection, flush stones.

Our products:
Wide range of tips,
 hydrogel coated or not.

Dormia Stone baskets

Stone extractor: For ureteric stones.

Our product:
Dormia:
 Nitinol (N.stone) or stainless steel, 3, 4 or 6 wires, helical or flat.

Dormia No-Tip

Stone extractor: For kidney or ureteric stones.

Our product:
Dormia No-Tip.
 Nitinol tipless basket, for efficient capture with minimal risk of trauma.

ReTrace access sheath

Ureteral access sheath: Eases flexible ureteroscopy.

Our product:
ReTrace.
 A continuous access to the renal pelvis, minimizes time and number of device (only one guidewire)

Ureteral stents

Drains the kidney, guides ureter healing.

Our products:
Silicone ImaJin, Vortek, Biosoft duo.
 Long term implantation (12 months) with or without coating, multi-length version.

Balloon dilators

Ureteral or percutaneous balloon catheters.

Our product:
In-Ka.
 Single step, high pressure dilation (17 ATM).

Percutaneous drainage

Percutaneous nephrolithotomy sets and catheters.

Our product:
Kolibri.
 Sets to drain the kidney (discharge).
 All items are available separately.

y Care

Benign Prostatic Hyperplasia (BPH)

Hospital Continenence Management (HCM)

General Surgery

Biopsy

The diagnostic before the treatment.

Our product:
Cobra.
For prostate and soft tissue biopsies.

Testicular Implants

The key product for bladder drainage.

Our product:
Folysil.
For regular to difficult catheterization.

Suction irrigation cannula

Good visibility for laparoscopy: minimally invasive surgery.

Our product:
Elefant. disposable suction irrigation cannula for laparoscopy.

Prostatic catheters

The key product to complete surgeries.

Our product:
Hydro X-Flow.
Silicone catheter with hydrophilic coating.

Urodynamics

Urethrocystometry:
Monitoring of urinary function.

Large range to fit user's needs

Surgical Drainage

Large range of drains
(180 ref).

Various drains used in digestive surgery.

Post op bags

The main accessory for catheters.

Our product:
Cystocare.
The perfect fit with our catheters.

Supra Pubic Drainage

For difficult / emergency drainage.

Our products:
Cystodrain, Supraflow, Uristil.
Multiple configurations & sets available.

Bladder evacuator

To collect prostate chips after TURP.

Our product:
Easivac.
Saves time.

Bladder Injection Needle

Dedicated needle for Botulinum Toxin injections.

Our product:
BoNee.
Especially designed and secure.

Kit for TURP

All the disposables in 1 pack.

Our Product:
Turpy Kit.
Convenient for users.

Prosthesis

Titan Touch Inflatable penile implant

3-pieces inflatable penile implant with hydrophilic coating and deflate button pump design.

- Touch pump: one touch of the deflate pads allows for easy deflation of the device
- The Bioflex® material of the cylinders allows for unmatched cylinder strength and rigidity.
- Reduced risk of auto-inflation with Lock-out™ valve on the reservoir.
- Hydrophilic coating to aid in surgical placement.
- Zero Degree angle proximal base input tubing for ease of surgical placement.
- Soft molded tip designed for suitable anatomic positioning.
- **Individually packaged (pairs)** • Sterile.

Virtue male sling

4 arm male sling for male stress urinary incontinence

- Knitted monofilament polypropylene.
- Bidirectional compression and elevation of the bulbous urethra with 2 transobturator arms and 2 prepubic arms.
- **Individually packaged** • Sterile.

Virtue 1 sling, 1 single use introducer	50020
---	-------

Female Pelvic Health

Aris & Supris Full-length slings

Mid-urethral slings to treat female stress urinary incontinence.
 Designed for predictable accurate placement and tensioning.
 Transobturator and retropubic routes.

- Made from knitted, monofilament polypropylene.
- Lightweight, macroporous with low elasticity.
- **Individually packaged or kitted**
- Sterile.

Digitex suture delivery device

This single incision transvaginal system delivers a suture to the operative site, when direct visualization or anatomical location is difficult to access. The device assists in suturing by passing a needle through the tissue to capture the suture ligation.

- Single use.
- Sterile.

Flexishaft™ Reaches Deep Pelvic Structures

- Safely position multi-directional device head
15 degrees when direct visualization or anatomical location is difficult to access.
- Comfortable and ergonomic handle.

SutureSmart™ System for Procedural Efficiency

- Smooth suture cap placement and preloaded «smooth suture cap placement and preloaded eliminates unnecessary or set-up time»
- Cartridge contains crescent needle for procedural convenience.
